HOW WILL PEOPLE
KNOW YOU PICKED A
FACIAL SPECIALIST?
THEY WON'T.

**Q. What options are available
to restore a youthful neck?**

A. "In general, individuals under forty years of age and/or have excellent skin quality do well with neck liposuction alone. Those individual's over forty, however often have a poor response because when the fat is removed, the skin lacks the elasticity (snap-back) to re-contour the neck. In essence one is left with a loose 'bag of skin' without the fat to fill it out. In this situation, re-contouring the neck line is best accomplished with a face lift, which results in a natural, youthful and well defined jaw line."

Dr. George Moynihan,
Chicago Facial Specialist
Rush University Medical Center
Loyola University Medical Center

**Now offering
Contour Threads™ Lifts**
